Colliseum Route

we returned to the "Fair Grounds" and then prepared to go to the entrance of the cave.

We went out of the Colliseum Route by way of the Council Chamber. From there we went to the Vestibule by way of the Saint Dominic Chamber. There we left our packages and went to see the Tabernacle which is second ~~&~~ only in size when compared with all of the different rooms in cave so far as explored at the present date. We returned to Vestibule and there prepared for a trip out to the entrance. I guess the majority of the party were tired for when I suggested that we would go and see the Sailor's Delight they said that they would ~~use~~ their muscle to get to the entrance with. We went to Castle Garden by way of the College and Chamber De Moret. We went from the south end of Castle Garden to Monte Cristo's Palace & from there to the Chamber of Bells. We arrived at the entrance at ~~about~~ 7:30 P.M. We were tired and hungry but ~~were~~ nevertheless never-the-less we were well satisfied with our trip.

I will give an illustration of an inscription in the North west end of the Fair Grounds by George A. Stabler.

FIRST DISCOVERY

March 20th 1892.

J.D. McDonald - E.L. McDonald.
A.F. McDonald - G.A. Stabler
